

ELITE POWER

DONT GET STRANDED

Looking for dependability? Our Remanufactured Starters exceed OE standards because they're Remanufactured using Advanced Remanufactured Technologies surpassing OEM processes. Our Remanufactured Starters are built with the most extreme climate, and harshest conditions in mind. Whether it be Extreme Cold, Hot, Dirty or Wet, Elite Power Starters have been remanufactured to withstand the test of time. Purchase and install with confidence once and keep on driving!

Elite Power Starters Deliver Confidence!

ADVANCED REMANUFACTURING TECHNOLOGY

Solenoids are disassembled, and all wear items are replaced to ensure maximum cranking power.

Armatures are tested and sealed using insulation coating to ensure longevity.

Drives and Clutches are fully disassembled, and all internal components are 100% replaced.

All shaft supporting bushings and bearings are replaced using upgraded bushing or ABEC bearings.

All brushes are replaced to ensure prolonged usage.
